# Circus 250 Pendant

Circus is a remarkable system of interconnected rings which can be arranged in sequence to create striking vertical decoration. Each brass ring projects an elegantly diffused warm LED light source outwards around a 360 degree plane. A revolutionary plug and play system allows for power sharing between rings and a large range of variations to suit spaces of various shapes and sizes. Circus is a theatrical and truly flexible system ideal for both commercial and residential environments. Handmade in New Zealand
