

She Said Bar Stool

Designed by Nitzan Cohen, He Said/ She Said is an interesting project. Distinguishing chairs with a masculine- feminine variation re- imagines their role, introduces a new dynamic between chairs, and a new form of product development for them. The top half of He Said/ She Said reveals the sophistication of Mattiazzi's manufacturing technologies. The mixture of high and low tech processes gives the collection a strong identity. He Said/ She Said is ambitious and restructures the concept of how a family of chairs is composed.
